

The V5 plan herbarium

23 plant portraits connected to their position on
the plan and their flowering period.

FLOWERING PLANTS

Persian buttercup

Ranunculus asiaticus

FLOWERING PERIOD

March to May

LOCATION ON PLAN

A1

Silky, densely layered flowers open the cutting season in shades of red, orange, yellow and cream.

FLOWERING PLANTS

Multicoloured zinnia

Zinnia elegans

FLOWERING PERIOD

June to October

LOCATION ON PLAN

A1

A sun-loving, highly productive annual selected for its vivid colours and excellent vase life.

FLOWERING PLANTS

Long-stemmed snapdragon

Antirrhinum majus

FLOWERING PERIOD

May to October

LOCATION ON PLAN

A2

Tall flower spikes structure the cultivated rows and add a light vertical accent to bouquets.

FLOWERING PLANTS

Cockscomb

Celosia argentea

FLOWERING PERIOD

June to October

LOCATION ON PLAN

A2

Velvety, sculptural flower heads bring an almost textile quality to summer arrangements.

FLOWERING PLANTS

Cornflower

Centaurea cyanus

FLOWERING PERIOD

May to July

LOCATION ON PLAN

B1

A meadow flower in deep blue, pale blue, purple and pink, ideal for giving bouquets an airy quality.

FLOWERING PLANTS

Love-in-a-mist

Nigella damascena

FLOWERING PERIOD

May to July

LOCATION ON PLAN

B1

Feathery foliage, delicate flowers and ornamental seed pods extend its interest beyond flowering.

FLOWERING PLANTS

Pot marigold

Calendula officinalis

FLOWERING PERIOD

April to November

LOCATION ON PLAN

B2

Robust and generous, it brings bronze, apricot and gold tones and can flower for a very long season in a mild climate.

FLOWERING PLANTS

Statice

Limonium sinuatum

FLOWERING PERIOD

June to September

LOCATION ON PLAN

B2

Clouds of small papery flowers, fresh or dried, bring a light and lasting texture.

FLOWERING PLANTS

Mauve rose

Rosa spp.

FLOWERING PERIOD

May to October

LOCATION ON PLAN

C1

A mauve and violet selection creates a perennial, scented presence that renews itself through summer.

FLOWERING PLANTS

Common yarrow

Achillea millefolium

FLOWERING PERIOD

June to September

LOCATION ON PLAN

H1 · N2

Flat terracotta, salmon and red flower heads are drought-tolerant, pollinator-friendly and excellent for cutting.

FLOWERING PLANTS

Scabious

Scabiosa spp.

FLOWERING PERIOD

May to October

LOCATION ON PLAN

H2 · ZMX

Pincushion flowers on fine stems move from dusty pink to plum with an exceptionally light silhouette.

FLOWERING PLANTS

Dianthus pink

Dianthus spp.

FLOWERING PERIOD

May to September

LOCATION ON PLAN

H2 · ZMX

A fragrant, graphic flower in pink, cream, mauve and bicolour shades, selected to enrich bouquets.

FLOWERING PLANTS

Strawflower

Xerochrysum bracteatum

FLOWERING PERIOD

July to October

LOCATION ON PLAN

H3

Crisp, luminous bracts retain their colour, from yellow to salmon and red, long after cutting.

FLOWERING PLANTS

Blanket flower

Gaillardia spp.

FLOWERING PERIOD

June to October

LOCATION ON PLAN

H3 · ZMX

A sun-bright yellow and orange daisy, heat-tolerant and flowering steadily into autumn.

FLOWERING PLANTS

Globe amaranth

Gomphrena globosa

FLOWERING PERIOD

July to October

LOCATION ON PLAN

H4

Compact papery globes, from red to violet, remain crisp in the garden and in dried bouquets.

FLOWERING PLANTS

Garden cosmos

Cosmos bipinnatus

FLOWERING PERIOD

June to October

LOCATION ON PLAN

D1

Fine foliage and carmine flowers bring movement to the rows through to the first cool weather.

FLOWERING PLANTS

Sunflower

Helianthus annuus

FLOWERING PERIOD

July to September

LOCATION ON PLAN

D2

A tall landmark flower, highly legible in the landscape, bringing height, light and food for pollinators.

FLOWERING PLANTS

Lisianthus

Eustoma grandiflorum

FLOWERING PERIOD

June to September

LOCATION ON PLAN

E1

Elegant, rose-like flowers bring refined mauve and violet tones to bouquets.

FLOWERING PLANTS

Dahlia

Dahlia spp.

FLOWERING PERIOD

July to November

LOCATION ON PLAN

E2

A spectacular and highly varied flower, invaluable for extending the harvest to the first frosts.

TREES

Mediterranean hackberry

Celtis australis

FLOWERING PERIOD

April to May

LOCATION ON PLAN

B1

A broad-crowned Mediterranean tree selected for its shade, heat tolerance and lasting structure.

TREES

Pompom tree

Dais cotinifolia

FLOWERING PERIOD

June to July

LOCATION ON PLAN

B2

Round pink flower heads turn the crown into a coloured cloud at the beginning of summer.

TREES

Bougainvillea

Bougainvillea spp.

FLOWERING PERIOD

June to October

LOCATION ON PLAN

F1

A vivid pink presence for a warm, sheltered position, trained as a sculptural specimen within the garden.

TREES

Pomegranate

Punica granatum

FLOWERING PERIOD

May to July

LOCATION ON PLAN

F2

Orange-red flowers followed by fruit unite ornament, seasonality and edible use in one specimen.

NOTE

Château Gasqui - Gonfaron

Locations are taken from the DQE V3 planting schedule. Flowering periods are indicative for the Mediterranean context of Gonfaron and cross-checked against horticultural and botanical references.
